Departure of Steamers.

FOR COLLINGWOOD AND THE EAST.
The Collingwood Line of screw steamers leave—one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.
Screw steamers, with good accommodations for passengers, leave the different transportation docks every day for Buffalo.

FOR PORT WASHINGTON, &C.
The Steamer Gazelle leaves Johnson & Olmsted's Dock at 8 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.
The steamer Traveller leaves Johnson & Olmsted's Dock every evening, at 9 o'clock, for Chicago and Intermediate ports.

The Foreign News.

The steamship *Asia*, with two days later advices from Europe, arrived yesterday. In the British Parliament the bill for the increase of the navy, had passed. It proves no easy matter to convince JOHN BULL of LOUIS NAPOLEON'S "pacific intentions."—The Peace Conference assembled at Zurich on the 8th. We shall probably be informed of its result by the next arrival. The balance of the French war loan unexpended, is to be devoted to internal improvements.—From Italy the news is very meagre. It is believed there that France is intriguing for the restoration of the Dukes of Parma, Modena and Tuscany. We do not credit the rumor that an attempt had been made to poison Gen. GARIBALDI.

The steamship *Great Eastern* is at last finished, and, according to the *Asia's* despatches, she was yesterday delivered up by the contractors, in complete condition and ready for sea. She makes her first voyage from Liverpool to Portland, Maine.

The commercial intelligence indicates a dull feeling in the British Produce markets.—Flour was very dull, and wheat had declined 2 to 3d. since the last departure. The London Money Market is reported more stringent, while the Bank of France had reduced its rate of discount from 4 to 3 1-2 per cent.

How Others Regard It.

The Missouri *Democrat* copies in full our report of the Bankers' meeting, at which the initiatory steps towards the establishment of a Mutual Redemption Bank in this State were taken, and commends the project highly.—The Chicago *Press & Tribune* also approves of the plan, and warns the wild-catters of Illinois against the vengeance of the people unless they follow the example. We are decidedly in favor of the proposed organization, and if the Bankers of Illinois see the necessity of adopting some similar arrangement, for the redemption of their currency at a central point, it will certainly result largely to the benefit of both States.

Mr. O. JENNINGS WISE is engaged in the preliminaries to another duel. [By the way, what ever became of that duel between O. JENNINGS WISE and B. B. BOTTS?] Mr. WISE is attacking in the most fierce style, Mr. PATRICK HENRY AYLETT, with whom he fought a duel some time in July, in the course of which he fired his pistol into the air. The N. Y. *Tribune* states the case and adds:

> Can Aylett, should Aylett endure in silence the re-discharge of the old charges against him? Can he bear to be told, as O. Jennings Wise told him several times in last Tuesday's *Enquirer*, that his "life had been spared on the field of combat;" that his "generous offer of reconciliation," made "in a moment of impulse," as he says, on the same bloodless field—was "a cool, calculated attempt to obtain" from his antagonist "an admission or plea of mistake? Fie, fie, Patrick Henry! If it were right to fight in July, it is right to fight in August.

THERE are already three vacancies in the Thirty-Sixth Congress before it has even assembled. Hon. THOMAS L. HARRIS, (Dem.) of the 6th Illinois District; Hon. CYRUS SPINCK, (Rep.) of the 14th Ohio District, and Hon. WM. O. GOODE, of the 4th Virginia District, have all died since their election.—Special elections will probably be held in each of these Districts this fall, so that their successors can take their seat at the opening of the session.

THE LETTER OF WENDELL PHILLIPS TO LEMUEL SHAW AND JAMES WALKER!—We have rarely met a more pungent or racy epistle than that addressed by the eccentric apostle of total abstinence to the venerable Chief Justice and Mr. Walker. It is like its author, a compound of red pepper, persimmon and attar of roses. We should think that both Professor and Judge would perceive a ghost in every glass of Montabello or Shablis hereafter drunk by either of them.

HERETICAL DOCTRINES.—The Pope has recently written an autograph letter to the Cardinal Vicar, which has been published by the Cardinal and posted on the walls of Rome. He says that in the provinces of the Church "a foreign and usurping authority has announced, "*That God has endowed man with freedom of opinion, both in matters political and religious,*" thus setting at naught the authority established upon Earth by God, and to which obedience and respect are due."

WAYLAND UNIVERSITY.—At a meeting of the Board of Trustees of Wayland University, held in the city of Beaver Dam, August 16th, it was unanimously resolved that at the commencement of the next term, on the 8th day of September next, a Normal department be opened and that Females be admitted to such department. All the former Professors will remain assisted by others as demanded. B. G. BLOSS, Sec'y pro tem.

PIUS IX. AND THE ITALIAN CONFEDERATION.—A correspondent of the Paris *Univers* gives the following as the substance of the Pope's answer to Emperor NAPOLEON'S proposition, conveyed by M. MENNEVAL, respecting the Italian Confederation:

> Pius IX. thanks the Emperor of the French for the interest which he unceasingly displays for the Holy See and the person of the Pope. He regards as an instance of the Emperor's filial devotion to the proposition relative to the Honorary Presidency of a Confederation or Italian League, that he would not refuse that post without having the most ample information respecting engagements which would result from it, and the relations which would exist between him and the various Italian Sovereigns. When he has procured such information, he will be enabled to see whether Catholic interests will permit him to accept it, and in that case the pacification of Italy and the return of its rebellious provinces will naturally have to precede the establishment of that Confederation and of the Honorary Presidency.

HENRY WARD BEECHER has a volume of sermons and a volume of lectures to young men in press.

To the Firemen of Wisconsin.

The subject of a State organization of the different Fire Departments of Wisconsin, has very frequently of late been the theme of discussion among the firemen of this City.—They are all in favor such organization and desire me thus publicly to call your attention to it.

I shall not in this note, propose any particular plan for the organization sought to be formed. My object is rather, in obedience to the wishes of the department over which I have the honor to preside, to call public attention to the matter in question. It is not to dictate how the object may be accomplished. The members of my own department, however, are deeply impressed with the importance of the subject named. They believe the Fire Departments of the different cities of Wisconsin will compare favorably with those of any other Western State. They believe a State institution composed of firemen, with its State officers empowered to award premiums and call the different departments together for exercise and competition for premiums, at such places and times as they might deem best, would have a good influence upon the members themselves, and add energy and enthusiasm to the fire organizations of each city in the State.

Many other reasons which the members of my department urge for the formation of such an institution might be given. But it is not my object to urge this question; it is simply to place the matter before the firemen of the State for their consideration and future action.

Hoping the proposition thus made by the firemen of Janesville will meet the favorable judgment of their brethren throughout the State, and asking in their behalf the favorable attention of the different papers of the State to the subject,

I am very respectfully,
IRA JUSTIN, Jr.,
Chief Engineer Fire Department, Janesville.
JANESVILLE, August 13th, 1859.

DESTITUTION AND DEATH.—A heart-sickening tale of destitution and death comes to us with yesterday's *Press & Tribune* from Chicago. A woman calling herself Mrs. HATTIE PUFFER, arrived in that city the early part of last week, over the Chicago & Milwaukee R. R., from Racine, Wis. She was accompanied with three small children, and stated that she came to join her husband, FREDERICK PUFFER—a painter. Being out of money, she was turned adrift by the proprietor of an inn where she had stopped, and in a pitiable condition wandered about until meeting with a sympathetic stranger, she was recommended to seek shelter in an empty house which he pointed out. The destitute family occupied the house three nights, without an article of furniture or bedding, the children and their mother sleeping on the floor. Within this time it would appear she had found PUFFER, who disavowed all connection with her.

Wednesday the attention of the neighbors was called to the poor creature lying in agony upon the floor, with her little ones about her. Help was at once proffered, and several sought at once to alleviate the condition of the family. All questions addressed to the sick woman as to herself and the cause of her illness were futile. She seemed in extreme agony, asked only for ice-water, of which she drank immoderately, and seemed grateful for the comforts secured by her visitors to the children.

Wednesday afternoon she died. The *Press & Tribune* states that the appearance of the apartments occupied by the poor creature was heart-sickening when considered as a home, the only home of a mother and tender little ones, and it may be satisfactorily shown that the poor creature shrank from the battling with her troubles, and put an end to her life.

Some circumstances, however, point so strongly to another solution of the mystery, that FREDERICK PUFFER, a painter by trade, and claimed by the woman as her husband, has been arrested, and is now in custody to await the verdict of the jury. PUFFER denies that the woman is his wife, or that she has any claim to his name.

The People vs. the Pope.

The following is the address of the people of the Romagna to their Majesties, VICTOR EMANUEL II., and NAPOLEON III., and to the other Powers of Europe, protesting against the oppression of the Pontifical Government:

> These provinces being now free, the undersigned, in the present serious crisis, exercise their most sacred rights, raising their voice before all Europe to solemnly express their wishes. The constant recurrence of revolutionary movements, and the restorations completed and maintained by foreign powers in this vicinity, has long and bitterly proved how the universal conscience perceives the complete incompatibility of the Pontifical Government with public order, civil progress, and the national life of the People. Therefore, the undersigned unanimously and resolutely declare, that the restoration of the Pontifical power under any form whatever, is by the desire of the country entirely and irrevocably out of the question. We would also say, that the people strongly desire to be united to the Kingdom of Sardinia, and to that King who, free and strong, can alone permanently assure their future.

THE OLDEST SHIP.—The bark *Maria* arrived at this port last evening from a three years' cruise in the Indian Ocean. She was built at the town of Pembroke, now called Hanson, for a privateer during the Revolutionary War. She was bought by William Rotch, a merchant of Nantucket, afterwards of this city, in the year 1783, and in the same year she made a voyage to London with a cargo of oil. Her register is dated A. D. 1782, and she is consequently in her 77th year. She claims to be the first ship that displayed the United States flag in a British port after the Revolutionary War, which flag is now in existence, though in shreds. Her model is of old French construction, tumbling home, or rounding very much on her top sides, and she is consequently very narrow on deck in proportion to her size, 202 tons. It is said that there is standing to her credit over $300,000; and from the earliest history of this ship she has never been any expense by loss to the underwriters except once, and that to a very small amount.—*New Bedford Standard, 11th.*

MISTAKES IN PER CENTAGE.—Mistakes are often made by persons not business men in calculating per centage. If a merchant marks his goods for sale at retail at 50 per cent. advance, and 33 1-2 per cent. be afterwards deducted from the marked price, he sells at cost, (because 33 1-2 per cent. of $1,50 is exactly 50 cents, the profit marked on $1.) If he sells goods at 25 per cent. above cost, and deducts 5 per cent. from the bill for cash, his profits are 18 3-4 per cent., and not 20 per cent., as some persons at first sight would suppose. Goods have been sometimes sold at a loss through mistakes in per centage.

APPALLING DEATH FROM HYDROPHOBIA.—We are nearly every summer doomed to record one or more of the most awful of deaths, in which the King of Terrors assumes the shape of hydrophobia.—Some four weeks ago, a Frenchman named Louis Laclere, a laborer, was bit on the arm and wrist by a dog. About four days ago the first symptoms of the horrible malady he feared began to manifest themselves. His employer procured his admission to the City Hospital, where the best accredited remedial measures were at once studiously adopted in his behalf. Despite these he steadily grew worse. For the most part entirely conscious of his condition, he gradually became the helpless prey of a series of terrible spasms, which hopelessly increased in intensity and frequency. His agonies were as if an internal fire was consuming him.

In calmer intervals, when water could be offered him, he would snatch the dipper and greedily gulph the draught, upon which a spasmotic closure of the glottis and a sense of mortal strangulation as in lock-jaw, would attack him and bring on the fiercest features of his madness. He would start violently and snapping at the bystanders, giving vent, with horribly contorted features, to noises resembling those of a furious dog! The spectacle is described as heart-rending and shocking in the extreme.

At his request a priest of the church of St. Vincent was called to receive his confession, and administer the rite of absolution to the dying. For this it was requisite that the priest should be alone with the victim. The clerical task demanded unusual courage.—The patient being cautiously secured a milder period of his torture was chosen, and the reverend gentleman safely performed his duty. The paroxysms returned and continued with little relief until Sunday night, when the miserable man was cured by death.—*St. Louis Democrat, Aug. 8.*

THE CITY.

SENTINEL READING ROOM.

WE have opened in connection with our new Counting Room, 207 East Water st., a Reading Department, where all the leading Daily Papers in the United States and Canada are regularly placed on file, for the benefit of those who may wish to see them. Strangers visiting the city are invited to avail themselves of our "Free Reading Room" at their pleasure.

The Detroit & Milwaukee R. R. Company.

The new steamers, the *Detroit* and *Milwaukee*, which are to be placed on the route between Grand Haven and this city, are expected to arrive here on Thursday, or Friday, of next week. It is intended to make their coming the occasion of a general celebration; and to welcome to our city, with appropriate honors, the guests who may be on board. At a meeting of our citizens, a few evenings since, the following gentlemen were appointed a committee to make the necessary arrangements: Messrs. CALEB WALL, H. CROCKER, W. H. HOLLAND, F. DAVLIN, BREMER, BRADLEY, VOGELGESANG, SCHLITZ, PLANKINTON, BEST, JOHN WHITE and HARRY BINGHAM.

It is proposed to greet the steamers, on their arrival, with a salute of artillery, a military and firemen's parade on land, and of the boat clubs on the water. A collation will be given at the Newhall House, and in the evening, there will be bon-fires, fire-works, &c. It is to be hoped that all of our citizens will lend their aid in the matter, and thus ensure an appropriate celebration of an event which promises everything for Milwaukee.—An adjourned meeting of all who feel an interest in the subject will be held at the Newhall House, at 7 1-2 o'clock this Friday, evening. Let there be a full attendance.

Lake Michigan Transit Company.

The Corporators under the act of the Legislature of this State, passed in 1858, chartering the Lake Michigan Transit Company, met on the 4th inst., and having ascertained that $300,000 had been subscribed to the Stock of the Company, proceeded to elect the following Directors:

CHARLES J. BRYDGES, H. C. R. BUCHER,
ALEXANDER MITCHELL, S. K. MUIR,
THOMAS REYNOLDS, N. J. EMMONS,
NELSON P. STEWART.

On the 18th instant, the Directors met in this city and made choice of the following officers:

President—C. J. BRYDGES.
Vice-President—THOMAS REYNOLDS.
Secretary and Treasurer—C. C. TROWBRIDGE, of Detroit.
Superintendent—S. K. MUIR.

It is understood that their new steamers will be run under the direction of the Lake Michigan Transit Company.

NOT A BAD JOKE ON SOMEBODY.—A young gentleman of this city, (of respectable parents but who does not live on Wisconsin street) became the subject of a joke a few days since—a joke that is too good to be lost.

He took his dulcinea, affianced, charmer or lady-love, (the intelligent reader may apply the term he likes best) out riding in a buggy, and as the shades of evening were closing, and they were returning from a no doubt ecstatic drive through the suburbs, and when near a deserted spot in the road that winds about the brow of a hill just north of the city, a couple of muffled figures started up from behind a rock, and while one held his nag's head, the other poked a rusty old horse pistol into the carriage, and said in a most dramatic bass: "Your money or your life!" The lover hesitated a moment, and seeing no signs of pity in the villain's face, in fact no signs at all, he pulled out his port-monnaie, and in diatetic language "forked over;" and therein lies the joke, for not a day passed, before the identical pocket-book was restored to the owner, amid the most boisterous glee, of as scartastically happy a crowd of young rascals as ever concocted mischief.

A NEW COMPOSITOR.—One of the articles in this morning's *Sentinel* was indited and *set up* by the Hon. RICHARD BUSTEED, Corporation Counsel in the City of New York, who, besides being an excellent lawyer, is a practical printer and a thorough good fellow. He has been spending a few weeks in our city as the guest of Judge MCARTHUR, and leaves for home to-day. We hope that his Western experiences have been pleasant ones, and cordially wish him a safe and speedy journey home.

We knew it would rain, for all the morn
A spirit on slender ropes of mist,
Was lowering its golden buckets down,
Into the vapory amythist.

And it did rain, as we predicted. The blessed boon was extended—as we stated in our last issue that it would be—the mint of Heaven was opened—the circulating medium put in motion, and a general run on the earth took place—as our readers will recollect we, with so much truth, asserted would be the case.

THE U. S. STEAMER MICHIGAN.—The U. S. Steamer *Michigan*, Capt. LANMAN, arrived in our port, yesterday, and lies alongside the dock, just below Walker's Point Bridge.—The steamer is in tip-top order, and will remain here two, or three days. We hope that our citizens, especially the ladies, will improve the opportunity to visit the steamer and make acquaintance with her gentlemanly officers.

ROW AT VLIET'S GROVE.—Yesterday evening a row occurred at VLIET'S grove, in consequence of the proprietor's remonstrating with a number of young men about allowing their horses to destroy the shrubbery. From words they came to blows, and the owner of the property was very roughly handled. We understand he will take immediate measures to prosecute the offenders.

GOOD TEMPLARS' STEAMBOAT EXCURSION.—We understand that the Good Templars of this city and their friends, propose having an excursion on Wednesday next, to Sheboygan Falls. They have chartered the fine steamer *Gazelle*, Capt. T. G. BUTLIN, to take them to Sheboygan, and thence they will go by the S. & M. R. R., to the Falls. LEAVITT'S American Cornet Band will accompany the excursionists, and the Committee of Arrangements will, we are confident, see that nothing is lacking to render the trip a highly agreeable one. Tickets for the excursion will be sold at the moderate price of one dollar, to go and return. Nothing could be more delightful than a jaunt on the Lake, in these days of dust and heat, particularly when the attractions of music and jovial company are added, and no doubt a goodly number of our citizens (outsiders) will gladly share the pleasures of the occasion with the Good Templars. The *Gazelle* will leave from the foot of Main street, at 8 o'clock Wednesday morning, and return by 2 the next morning.—Tickets for sale at MATSON & LOOMIS jewelry store, corner of East Water and Wisconsin streets, and at W. K. MURISON'S Confectionery store, East Water street.

FURTHER ACTION IN REGARD TO THE RECEPTION OF THE NEW STEAMERS.—The Committee met Wednesday evening for the purpose of reporting progress. They had already raised $129 making in all $413. On an inquiry as to what had got to be paid out, it was stated that there were two colors to be presented, which would cost about $400, but only one of them would be ready for the presentation. There will be about eighty guests, the officers and directors being on one boat, and the invited guests from New York, Buffalo, Detroit, &c., on the other.

Mr. BRADLEY was appointed on the Committee, in place of Mr. NAZRO, who was unable to attend to the business, and CALEB WALL afterwards moved to increase the Committee to twelve, which was adopted; making it stand as follows:

Messrs. Caleb Wall, Col. Crocker, W. H. Holland, G. Bremer, F. Davlin, Harry Bingham, Chas. Bradley, F. Vogelgesang, J. Schlitz, John Plankinton, Gen. Best, Col. John White.

It is gratifying to observe the unanimity of feeling among our citizens in regard to this matter. It is justly regarded as an occasion of no small importance, and we have not the slightest doubt of ample funds being raised before the Committee meet to-night.

A BLOODLESS DUEL.—Messrs. MORRISON and DUNAND (the former of whom figured somewhat conspicuously in the *Wisconsin* yesterday) who it seems have been working up a one-sided quarrel for the past few days, last evening arranged a duel, according to the approved rules of honor, and repaired, together with the attachees of the *Wisconsin* office, to the lake shore, to enact their grand finale, and extinguish each other in smoke and blood. Those who "saw the deed," say it was "grand." MORRISON only somewhat destroying the effect, by falling two seconds before his antagonist's pistol went off. DUNAND was seriously wounded in the ribs, (whether from laughter or wadding we did not learn) and was hurried off in a carriage by his seconds. At the time of our going to press, "serious" hopes were entertained of MORRISON'S recovery.

MAN KILLED ON THE LA CROSSE ROAD.—Yesterday morning as the 9 1-2 train was coming in on the La Crosse road, and when near Granville a man was discovered on the track, going towards the train. He stepped from the track, but by some means was struck by the passing train in the left side, knocking him some distance. Conductor OLIN immediately stopped his train and picked the man up. He was placed on board, but died from his injuries before arriving in the city. His name was THOMAS BOYDEN, and he came from Westfield, Marquette County, where he has a sister residing.

NEW PRODUCE AND COMMISSION HOUSE.—In our advertising columns this morning will be found the card of Messrs. JAMES KEELER and JOHN P. WILLARD, who, under the name and style of KEELER & WILLARD, have commenced business in our city, as Produce and Commission Merchants. Both of the partners are well-known in our city and State, as experienced, trustworthy and intelligent business men; and we take great pleasure in commending them to our readers, at home and abroad, as eminently worthy of their confidence.

ARRIVAL OF THE REVENUE CUTTER.—The U. S. Revenue Cutter *A. V. Brown*, Captain MITCHELL, arrived in our port yesterday afternoon, from her northern cruise, and came to anchor at her old moorings in the river, just below the straight-cut. The cutter looks as trim and taut as ever, and the officers and crew are all well.

IMPORTANT SALE.—The attention of the reader is directed to the immense Sheriff sale of Groceries, etc, etc, etc., which is to commence this morning, at the store of E. HASKINS. There will undoubtedly be chances for rare bargains. Call and see.

WANTED TO EXCHANGE.—J. S. FILLMORE wants to exchange 10 acres of land with fruit trees, house, barns, &c., within one mile of the city limits, in a good location, for a house and lot in the 7th ward, and will pay some cash also.

SHERBROOKE, HASKELL & Co., produce and commission merchants, for the purchase of flour and grain; office in Pierce's block, corner of Wells and West Water streets, Milwaukee, Wis. Liberal cash advances made upon consignments to our House in New York. aug17d2wi650

THE BENEFIT to Major ROBINSON was not as largely attended as we had hoped, but the performance was excellent, the band executing some of their best pieces, and the Major, if possible, fifing better than ever.

THE SALE of soap, books and dry goods, takes place at C. WALL'S auction room, No. 246 East Water street, on Tuesday next, at 10 o'clock A. M.

CALEB WALL has two new advertisements of auction sales; one of dry goods, another of superior furniture. Read them.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

LATER FROM EUROPE.

Arrival of the Steamer Asia.

SANDY HOOK, Aug. 18.—3 P. M.

The steamship Asia, from Liverpool on the 6th inst., passed here, bound for New York. Her advices are two days later.

The Peace Conference at Zurich, is to meet on the 8th inst.

In Parliament, a bill creating a naval reserve of 30,000 men, is progressing.

Count Colleredo, the Austrian, M. De Sambrus, the Sardinian, and De Bourqueney, the French representatives to the Peace Conference, had either reached Zurich, or were en route for the meeting on the 8th.

The English Parliament had passed all the navy and army estimates, and were expected to adjourn on the 13th.

Volunteers for the 30,000 naval reserve are to enter for a five years service, and will be to the navy what the militia is to the army.

The steamer Great Eastern will be delivered up by the contractors in complete condition, on the 18th of August.

The strike among the builders of London was becoming more serious every day. It was expected that 40,000 of the men would be without employment the day the steamer sailed.

The Bank of France had reduced its rates of discount from 4 per cent. to 3 1-2 per cent.

The disarmament of the French navy was progressing.

The 150,000,000 francs unexpended of the late loan is to be devoted to internal improvements.

The Paris Bourse was firm, and rentes had advanced to 69f.95c.

ITALY.—It was reported that an attempt had been made to poison Gen. Garibaldi.

It is said that France is intriguing to restore the Grand Dukes of Tuscany, &c.

Naples has decided to admit breadstuffs free of duty.

AUSTRIA.—It was reported that Baron de Bach, the Austrian Minister of the Interior, has tendered his resignation, the acceptance of which was refused by the Emperor.

A ministerial crisis is said to be impending owing to the conflicting opinions on the question of reform.

The papers received by the Asia furnish the following details of news:

ENGLAND.—In the House of Lords on the 6th, the Marquis of Normandy gave notice of his intention to put a question as to terms of peace which were under discussion prior to the treaty of Villa Franca.

The Earl of Granvill announced that the government intends to adhere to the principles on which the system of national education in Ireland has hitherto been conducted.

The threatened strike in the building trade in London, daily becomes more serious, and it was feared on the day the *Asia* that there would be 40,000 operatives in the trade unemployed. A great number of meetings had been held in Hyde Park, and a determination arrived at to abide by the 9 hour movement. The employers had likewise held a meeting and resolved to resist the demand.

A ministerial crisis is said to be impending, owing to the conflicting opinions on the question of reform.

A denial is given to the statement in the Le Nord of a pretended interview between the Emperor of Austria and the King of Sardinia at Villa Franca.

The Vienna Gazette contains the ordinance revoking the restrictions which were imposed on commerce on account of the war. The introduction to the export of horses and mules is however maintained.

INDIA.—The Calcutta mail of July 5th had been telegraphed.

The European troops were accepting their discharges in large numbers.

The mutineers at Bimshampore had returned to duty, except forty of the leaders, who will be court-martialled.

Exchange was quoted at .25 1-5da25 3-8d.

FRANCE.—It was stated that the French Government had definitely resolved to employ in works of public utility, the one hundred and fifty million francs, which remain unexpended of the late loan.

The Paris Bourse had been generally firm and animated. On the 5th there was considerable buoyancy, and market closed at an advance of 1-8.

Texas Election.

NEW ORLEANS, Saturday, Aug. 16.

Very late advices were received from Texas this forenoon, giving the returns from eighty-two counties in that State. These returns show a majority for Gen. Sam. Houston, Independent Democrat, for Governor, of 8000 over Hardin R. Runnells, the Regular Democratic candidate.

For Lieut. Governor, the returns at hand seem to favor Francis R. Lubbock, Regular Democrat, who is doubtless elected.

For Land Commissioner, Francis M. White, Regular Democrat, was 2,000 ahead at last accounts.

In the Western Congressional District, Jack Hamilton, Independent Democrat, was ahead of T. A. Maul, the Regular Democratic candidate.

From the Legislative Districts, we have the returns of 54 members—29 of whom are understood to be in favor of the re-election of Gen. Sam Houston to the United States Senate. The Opposition candidates known to be elected number 20.

Nomination.

LEAVENWORTH, Aug. 18—3 P. M.

The Democratic Territorial Convention, at Topeka, yesterday, nominated S. W. Johnson for Congress.

Sales of Government mules at Utah are complete, and brought very high figures.

Fatal Affray.

NIAGARA FALLS, Aug. 18—6 P. M.

M. Blondin crossed the River on his rope yesterday, with a man on his back. During the performance a row occurred, and a man 60 years old was thrown over the river bank and killed. His name was Colwell.

Balloon Ascension.

LAFAYETTE, Ind., Aug. 18—3 P. M.

Prof. John Wise ascended from here at 2 o'clock; destination east.

From Pike's Peak.

LEAVENWORTH, Aug. 17—9 P. M.

The overland express has arrived, News unimportant. Receipts of dust for the week $25,000.

ST. LOUIS, Aug 18—3 P. M.

A despatch to the *Republican* says that the Salt Lake mail reached Atchison yesterday. Capt. Cooper, formerly Secretary of the Territory, was nominated for Congress, vice Bernheisel.

NEW HAVEN, Aug 18—3 P. M.

Hon. Daniel E. Sickles and lady are at present stopping at Savins Rock water place near New Haven.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Additional by the Asia.

NEW YORK, Aug. 18—9 P. M.

FRANCE—PARIS, Friday morning.—The Moniteur of this morning contains the following: A deputation of Venetians presented an address to the French Minister at Turin, intended for the Emperor, and in which was contained a protestation on the part of the Provinces of Venetia, against the direct and indirect domination of Austria on that part of Italy. The minister, we are informed accepted the document, but said not a word in reply to it.

The Patrie says, that according to a letter from Florence it is supposed that Garibaldi would take command of the Tuscan army.

The same journal further states that the Emperor Napoleon will visit the camp at Chalons, and will stay there till Tuesday next.

The Paris correspondent of the Daily News, says it is expected that the Moniteur will, in a day or two, publish a note in reference to the French Conference, which will confirm the lately announced pacific disposition of the French Government.

AUSTRIA.—The Vienna Gazette contains Ministerial ordinances revoking the restrictions which were imposed on commerce and navigation, on account of war with France.—They, however, maintain for the present the interdiction to export horses and mules.

SARDINIA.—M. DeLimbrois of Piedmont, has arrived at Zurich. The official Journal of Lombardy denies reports published in certain papers as to the object of the mission of Count Reiset, and states that the French diplomatic agent has received such instructions from his Government, as are favorable to the wishes of Italy.

The disturbances at Crema have not been of any political character.

In the Duchy of Modena a great concourse of electors have inscribed their votes.

AUSTRIA AND ROME.—The Daily News publishes, for the first time, a translation of the convention concluded between the Papal Government and the Austrian General commanding the army of occupation at Bologna in 1850. The armed maintainance of the Pope's authority was not only committed to the Austrian General, but the highest judicial powers were attributed to him. To the tender mercies of the Haynaus were left the trial and sentence of men charged with political offences of every degree, from high treason down to party demonstration and members of secret societies.

MODENA.—Tarna, the dictator of Modena, in a second proclamation, says, let the conquered followers of its foreigners menace us, and I shall resolutely employ all the means at my disposal to defend the national independence.

The Presidency of the proposed conference is a fruitful topic of discussion in continental journals. The *Siecle* declares itself opposed to the assumption of that office by the Pope. Nothing, it thinks can be gained by according any advantage, elevation, or dignity to the papal power.

A correspondent of the Univers gives the following as the substance of the answer of His Holiness, to the Emperor Napoleon's proposition: Pius XI. thanks the Emperor of the French for the interest which he unceasingly displays for the Holy See, and the person of the Pope. He regards as an instance of the Emperor's filial devotion, the proposition relative to the honorable presidency of a Confederation, or Italian league, and he would not refuse that post, without having the most ample information respecting the engagements which would result from it, and the relations which would exist between the various Italian sovereigns.

When he has procured such information he will be enabled to see whether Catholic interest permits him to accept it, and in that case the pacification of Italy, and the return of its rebellious provinces will naturally have to precede the establishment of that Confederation and the Honorary Presidency.

The Austrian Gazette states that Cardinal Antonelli has presented a scheme of an Italian Confederation consisting of a sort of mutual assurance association of the Italian governments destined to replace the Austrian protectorate. The object of the confederation is declared to be to control revolution whenever it may show itself and to fortify the governments in such a way that they may annihilate all revolutionary proceedings.

The *Journal De Franfort* affirms that in consequence of the complications which prevail in Italy the Emperor has resolved only to withdraw from Venetia the 4th battallion of the 22d regiment of infantry, so that the forces assembled in that country will be diminished by only 25,000 men.

INDIA.—The French Consul at Oden, has been murdered while transacting business on the opposite coast.

TO THE FRIENDS AND PATRONS OF
LAWRENCE UNIVERSITY.
THE FIRST TERM OF THE PRESENT Collegiate year begins on Wednesday, the 7th September, 1859. To those who enter within the first day and a half, a deduction is made of 50 cents in College, and 25 cents in Seminary, from Incidental charges.
THE UNIVERSITY has in full operation a Seminary, College, Normal School, School of Engineering, and a Ladies' Department.
THE SEMINARY has a course of study planned and graded with care. It embraces a period of two years—"Senior Preparatory" and "Junior Preparatory."
THE COLLEGE has two regular courses of study—the Classical and Scientific—each embracing a period of four years. The Classical is the same substantially as in the older American Colleges. The Scientific is nearly identical with the real course in the best German Gymnasia. It gives in English Language and Literature a wide and thorough culture; in Latin enough for the understanding of the Latin words found in scientific terms; in French and German enough for reading scientific treatises in those Languages.
IN PURE MATHEMATICS the subjects are selected and the instructions given with express reference to use in Physical and Industrial Science. No pains will be spared to give the pupil skill and readiness in applying the higher analysis in Mechanics, Physics and Mensuration.
AMONG PRACTICAL MATTERS in this department are Land Surveying, Engineering, Industrial Mechanics, Physics and Industrial Drawing.
THE NORMAL SCHOOL follows the course of study and training laid down in the latest programme of the Regents of the State Normal School. Full time in this course, three years. Drill in Arithmetic, and in English Language and Literature is meant to be complete and rigorous. Pupils on the full course, receive the same training in pure mathematics and in practical science, with those in College Scientific course.
THE DEPARTMENT OF ENGINEERING receives those who wish to study nothing but Industrial Science.
THE EXPERIMENTAL SCHOOL is designed to prepare pupils to enter regularly upon the Seminary course or upon the Normal course. It also gives to Normal pupils practice in the art of teaching. In connection with the teachers' class in Normal Department, there are occasional lectures by members of the Faculty.
THE LADIES' DEPARTMENT is, in its internal arrangements, about as heretofore. The time is four years. Ladies from abroad are under the immediate charge of the Preceptress; and hence are required to board and lodge in the Ladies' Building, to which additional accommodations are now being made.
THE UNIVERSITY is well furnished with Apparatus; has a fine Library; and is making important additions to its Cabinet. Ladies have same use of Cabinets, Library and Apparatus, as gentlemen.
Provision is made for those wishing to study Painting and Drawing. Instrumental Music on the Piano will be taught to those wishing it. A competent lady is engaged for that purpose. Pupils attending the University will not be allowed to take lessons of others not engaged in the service of the College, without permission.
HOLDERS OF SCHOLARSHIPS are entitled to free tuition in all regular classes, both Seminary and College. This does not embrace the Modern Languages when taken out of the regular course, nor the Ornamental Branches or Engineering in any case.
R. Z. MASON, Acting President.

Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State on that subject.

Each Assembly District will be entitled to two delegates in the Convention.

It is recommended that District Conventions for the selection of delegates be held throughout the State, on or before the 25th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the Convention.

Physical Training.

The medical world appears to have awakened to the alarming fact that our modern system of bodily training, with its accompanying gymnasiums and infantile acrobats, is altogether a great wrong. An Eastern Doctor has boldly declared that the "gymnastics" are, in the end, far from beneficial to the tender frames of our youth.—That the unnatural strain upon the muscles distorts and injures them; that it impairs the nervous system, and instead of conferring that *calis* and *thenic*, of which the popular lecturers are so eloquent, it destroys the anatomical beauty of the limbs, and instead of developing—strains and hardens the muscles. Immediately following this announcement, comes the "*just what I always said*" of the many opposed to any physical exertion, beyond that dictated by fashion or laziness, and a great deal is being said for and against the rapid growth of gymnasiums and juvenile gymnasts.

Within the past three years a great number of itinerant lecturers have been going about through the Western country expounding the principles of health, and establishing clubs for the purpose of athletic feats. In most of the large cities whole families have placed themselves under the training of the experienced gymnast, and in one place we hear of a "scientific foot race" between the females of a thriving school for the development of the muscles. The foot race being witnessed and applauded by the public crowd. Most of our wealthy fathers have felt it incumbent upon them to erect leaping-bars and slack-ropes in their nurseries to keep up with the age, and in some localities where the fever ran highest, the young ladies came down stairs on the balusters, and carved the turkeys with a preliminary toss and flourish of the carving-knife, appalling to the uninitiated, who reasonably expected, when the fair performer took her seat on the piano-stool, to see her execute a series of back somersets before breaking out in a gallopade.

All this has been the unexpected result of a correct principle. It is the natural reaction, and it is not strange, in the first enthusiasm of a reform, men, as usual, have run to the greatest extremes. It seems to be apparent now to the profession, that if we do not wish to make *Zouaves*, or BLONDINS of our rising generation, the present system of premature physical exaction is unnecessary, and if their observations are correct—injurious.

We do not doubt it. Nature does not require the over-tasked student to hang by his heels that his mental strength may be recuperated. The fallacy that hanging from a high rope by one hand or the balancing of weights with outstretched arms will reintegrate the system, seems to be better understood of late, and looked upon as ridiculous when classed among the hygienic demands of nature. We do not believe that nature made any provision in the structure of young men for acrobatic nonsense. We can conceive of no circumstances in which the most extravagant of these feats will ever avail the practitioner either in a social or moral sense, and pecuniarily they can benefit him only by his joining a circus company. But the greatest objection after all probably lies in the fact that young men and women are surrounded by opportunities of improving their physical condition without any recurrence to these things. There are means of exercising every muscle of the body in wholesome, exciting and pleasurable recreations that not only leave a glow upon the cheek and send the blood through every channel with a new impetus, but restore elasticity to the mind by the very enjoyment forming a part of the indulgence.

The young lady who goes to school with nature, may not be able to stand on one toe, she may have no strength to wield a bag of sand or climb a knotted rope, but she thinks nothing of walking out on the prairie before breakfast and gathering the flowers before the sun dissipates the dew, she may walk five miles, but her mind does not take cognizance of the distance and she returns, not "worn out" but far better qualified for the duties of the day than if she had been put through a course of gymnastic exercises.

If this young lady wishes, she can pull an oar, and as she not unfrequently does, so her lungs and the muscles of her breast have acquired a degree of health far superior to the fancied gift of dumb bells. And if this young lady should fall into the water during her excursion, she would not deem it unfeminine to swim ashore, and would so far forget her womanly attributes as to forget to scream when there was no danger. She manages a horse well, but always survives when compelled to make her call on foot.

As for Young America, we believe common sense would rather at all times see him playing ball than straining himself in painful attitudes, and bending his tractible body in positions that are presented by the periodical showman.

Let his gymnasium be out on the water; in the fields or groves; let his inclination prescribe the formula, give him full scope and liberty, and the lungs will dilate, in the excitement of a joy that is never known in he practicing room, or the narrow play ground.

SENSIBLE.—The French Government have determined to include in the accomplishments of the army a knowledge of the art of swimming as a considerable number were drowned in crossing the rivers in Northern Italy.

Swimming, with almost every creature but man, comes like Dogberry's "Reading and Writing," by *nature*; as for him he *knows too much* to strike right out and "buffet the waves with lusty sinews." The art should form a part of every boy's education. Three things are neglected, that are necessary to entitle a man to be deemed liberally educated, *viz:* the art of swimming, of managing a horse, and of handling a gun. He wants these as *much* as he wants Latin or Greek, and a great deal *oftener*.

NON-COMMITTAL.—The Democrats of La Crosse, at their meeting last week, passed the following resolution of instruction:

Resolved, That we adhere strictly to the principles promulgated in the Cincinnati platform, and that our delegate to the State Convention is hereby instructed not to endorse the policy of the Administration in regard to the Lecompton Constitution, nor particularly compliment Mr. Douglas, falsely represented as against the administration.

FROM UNDER A BUSHEL.

Angling in the Mississippi—Catfishcosis—Loss of the Kate Howard.

ST. LOUIS, Aug. 16.

Shade of Walton, perhaps still lingering about some thyme scented stream where limpid waters break out into song over every obstacle, and dark and grassy retreats knew thy coming, and the speckled trout peep from under the deep and shady banks—look at us great *Angler* Saxon as we boil over this yellow cauldron, and with many professional glances and much zeal, pulling up huge branches and slimy, incipient sawyers with sportsmanlike care, ever watching and trusting for the feline *scales* to turn in our favor. Oh, sealy cat! how much like patience on an unstable monument did thy best friend appear, under that tropical shower of fire and over that molten stream, his heroism all sublimated into myrterdom and his marble brow marking the slow moments with Freckles. Audibly, I said to the chum, "It was fine sport," inwardly I wished I hadn't *come*. I held the vibrating cord, that the mad river jerked and pulled, between my fingers and thought of the shady stream that danced down from the mountains at Tarrytown, and gurgled through the trees into the Hudson. I thought, with pride, over the *net* proceeds of a day's sport, which were microscopic minnows and infinitesimal trout, and I contrasted the deep glens and cool ripples with the glaring sun and this yellow torrent, and I am afraid I felt wicked enough to have dried up the infamous "Father" had it been in my power.

That old Saxon, before mentioned, has paraded all the virtues attendant upon successful angling, but he never said a word about the vices which spring from *non*-success. WALTON was a lucky dog and therein lies all the secret of his benevolence. There is nothing incongruous in fastening a mammoth trout and perpetrating a gem of thought at the same time. There can be no difficulty in jerking the barb out of a fat pair of gills, and simultaneously jerking out a sentiment of gratitude for the benefit of posterity.—Paeans ought to rise with the odor of fresh fish. It is no way laborious to talk of peace and good will, while a dozen flabby tails beat time in your basket. But when you liquify under an ignious atmosphere; when your body is slowly consuming, despite the efforts of nature to extinguish it in perspiration; when you finish fin—less—universal brotherhood is abominable!

I made a secret vow that once out of this scrape my WALTONIAN skill should be confined for ever afterwards to the flourishing of a fork over a box of sardines. No sooner had I scored this resolution down on my memory than the chum, who occupied the stern of the boat, made a flying leap to the bow and striking his toe, on the passage, against one the thwarts came down handsomely with his head on the stern, his nose acting as fender, and suffering somewhat for its prominency in the affair. In a moment or so I undertsood it, *catfisheosis Mississippienses*, had admired the poetry of our lines at last; a cat was trying to pull one of us overboard.—Brave chum, he did not relinquish the line in his fall, and shortly afterward we lifted in his feline honor—and O ye gods and finny monsters, he required two of us to lift him, and must have been three feet long. It was grand after all. The Yellow stream seemed less like rhubarb and more like gold. I wanted to fish a little while longer. There was poetry in it, our lines turned out to be an epic poem of three feet—it was glorious. But the chum overruled the desire, and we proudly pulled back to the city. This was my first and last attempt to fish in the "father of waters."

As we pulled in, WOLVINGTON vouchsafed a little of his enthusiasm. Hear him prophesy:

"I tell you, St. Louis is the gate through which the future travel from either ocean will pass, and at which it will leave it tribute, that shall eventually make the Mound City the metropolis of the New World. Don't talk to me of your Pacific Railroads, running from St. Paul, or through Texas.—While enterprise has been scanning the prairies elsewhere, the people of Missouri have projected the rails into the wilderness, and have gone farther West than all of them.—With this great metropolitan organ throbbing at her bosom, will not vitality be diffused through every country!"

"No," said the chum, decidedly, and the "no," was very much like the dropping of a flood gate. "Wolf's" stream of eloquence was stayed effectually.

I do not think the visitor at St. Louis would form a very favorable opinion of her business just now. Since I wrote you last, the sun has daily grown more intense, and the river has been falling rapidly. The Levee is deserted, no one being desirous of risking life. The steamers look arid and lifeless. Many of the larger boats are unable to leave for *want of water*. I can easily imagine one of these huge affairs far up the Missouri, throwing the mud over herself with her paddles and making a hideous attempt to swim in the puddles and sandbars. If this weather continues we may ultimately "expect" a discontinuance of the parental brook, altogether. I would that my scientific education were sufficiently exercised to determine how much of the Mississippi evaporates in passing St. Louis, under the present sun. The chum asserts that the boats that now "go up" keep their whistles blowing continually, to drive the cows out of the channel, and the deck hands, for the greater part of the way walk outside of the vessel, in order to push her along. I don't doubt this, but the additional "fact" that the captains carry lager bier for ballast, in order to keep the passengers from drinking the river water, is a "moss covered story," that I can laugh at without believing. As the wedge-like prow of our coffin shaped "nautilus" grounded on the levee, the great head of a negro, with eyes in globular astonishment, suddenly looked over a molasses hogshead:

"Golly gracious, massa, you wouldn't mind lettin' a nigger look at de fish wud ye?" and he leaned on the gunwale of the boat in wrapt admiration.

As WOLF sprang from his seat to the shore the incarnate ebony continued—

"Say gemmen—spose yous let a nigger tota the fish, eh?" "Bring it along," said WOLF, and Sambo with much alacrity bent under the fiscatorial weight and followed us to "BARNUM's," evincing more pride on the way, at his unusual burthen, than the sportsman had felt in its capture. At the door of the hotel he laid it carefully down at the porter's feet with a momentuous "Look a' dat," and when WOLF offered him a "quarter" for his trouble, he put his hands in his pockets and shaking his head, said: "Yous don' suppose dis child take any money fur dat job. When yous gwine a fishin agin jus' let a feller kno' an dis nigger'l pull de boat."

You will have heard of the sinking of the *Kate Howard*, ere this reaches you. She was one of the most popular and beautiful Missouri River packets. The circumstances attending the disaster, are somewhat novel. She was laden with a heavy cargo and crowded with passengers. On Thursday evening—a most glorious evening—the ladies and children were enjoying themselves on the hurricane deck. Festivities were plentiful. The *Kate* glided along smoothly. Suddenly there came a crash—a creaking of timbers, and a swaying of smoke-pipes. Ladies screamed, and the children cried, and the captain was struck "all of a heap." In a moment the bonny boat began to settle, and it became painfully apparent that it was the *gndl* settlement of the vessel. In about six or eight minutes she sank directly across the channel, leaving the cabin perfectly safe and dry.

The passengers remained on board during the night, and in the course of the evening performed the "last sad duties" to the used-up steamer. A speech was made by a reverend gentleman, a committee was appointed to draft resolutions, and the band played a dirge, after which the folks went to bed and slept as soundly as though they hadn't sunk at all. The next morning the *Rowena* took them all off, bag and baggage, to the last band-box, and landed them safe a few miles further up, near the railroad.

The river fell four inches last night.

SANS SOUCI.

The Suspension Bridge.

The Buffalo *Courier* contains the following satisfactory and reliable contradiction of an idle rumor that has found its way into the newspapers, about the "sagging" of the Suspension Bridge at Niagara:

THE SUSPENSION BRIDGE.—We took occasion, when at the Falls on Saturday last, to visit the Suspension Bridge, and satisfy ourselves as to the correctness of the New York *Herald's* correspondent's statement, that the bridge sags about 20 inches at each crossing of a train upon it. This foolish and absurd rumor has gone the round of the newspaper press, and we are convinced, after a careful examination of several hours, that it has not the slightest foundation in fact, and originated from either ignorance or willful malice. Soon after reaching the bridge we had the good fortune to meet Mr. McKenzie, the resident inspector and master carpenter of the bridge, who conducted us over the bridge to the towers, and underneath the bridge where a scaffolding had been erected to enable the workmen to paint the lower floor of the carriage way. From Mr. McK. we obtained the following particulars:

The bridge was completed and open to traffic in May 1855. During that year not a bolt gave way, nor was there a single day spent in any repairs. In 1856, all that was done, was tightening up or loosening the stays to suit the temperature. In 1857, for the purpose of giving additional stiffness or strength to the lower floor, and not to remedy any defect, beams were placed under the lower floor and securely bolted to the upper floor. In 1858, a portion of the inch truss rods for a distance of 350 feet in the centre of the bridge were replaced by inch and a quarter rods. This was done as an additional support to the beams. White oak was also used in some portions of the bridge instead of pine, as the latter was found to be too soft and pliable under certain circumstances. The pine was put in last year. This year rubber or spring washers have been introduced in place of the iron ones, and they are found to lend additional elasticity to the structure.

All of these improvements have been made as we have already said, to render the bridge stiffer, and not to remedy any defects found to exist. We went across on one train and were on the bridge when four other trains passed. Two passed while we were on the carriage way, one while we were on the railway track, and one while under the lower floor on the scaffolding. During the passage of these several trains but little more motion was perceptible than during the crossing of an omnibus load of passengers, and it would be difficult to detect the difference except for the rumbling noise of the locomotive. We were one of a party of a dozen or so who went across the Suspension Bridge in the first passenger car that ever crossed over. This was in 1855, and we did not perceive any more motion on Saturday, if as much as we did at that time. We saw several trains cross and re-cross, and we did not notice that a single passenger left the cars to walk across, and the railroad conductors say that only occasionally a passenger gets out and walks, and then solely for the purpose of getting a better view of the great structure.

It is the duty of the resident inspector to examine every portion of the bridge carefully every week, and report its condition to the Superintendent. We believe the bridge to be safe and secure, and have perfect confidence in its durability.

From 30 to 45 trains a day pass over the bridge and have passed during the past four years, and we are assured by the Inspector that the bridge sags no more now than it did during the first six months of its use, and, he asserts that it is stiffer and safer now than during any period since its completion.

The story started by the New York *Herald* of the sagging of this noble structure has called forth from Mr. J. R. ROEBLING the builder, who is now a resident of Pittsburgh, a flat denial, attributing it to the malice of some individual. He says:

Being constantly kept informed, as the engineer of this work, by the superintendent who has it in charge, I can inform you that that correspondent's statement is a gross *misstatement*, made either from ignorance, wilfulness, or perhaps both. I will only add that in consequence of the contraction and expansion of the cables, the Niagara bridge rises and falls inversely with the temperature, amounting to two feet for a hundred degrees. Hence the cry every summer that the bridge is giving way rapidly. This work has undergone no change since its completion, and it is well taken care of, and of all the railroad bridges on this continent it will be the last to fail.

DEMOCRACY IN KENTUCKY.—The Louisville *Courier* (dem.) thus sums up the result of the late election in Kentucky, which has been claimed in some quarters as a DOUGLAS triumph:

Magoffin was elected on a protection platform, drawn up by himself; that Linn Boyd, a thorough protectionist, on the State ticket, was elected by the largest majority of any of our candidates; and that the next strongest to Boyd for this doctrine were elected by majorities in proportion to their intensity on the protection question. And we may add, that, if the Democracy of the State had everywhere followed our advice, we should have carried the State by at least twenty-five thousand majority. As it was, the Opposition were permitted to use the true Democratic thunder of protection, and with it they have secured five Congressmen, and reduced the majority for Magoffin to less than 9,000. These things should teach the Democracy of Kentucky a lesson not soon to be forgotten. Revill, a straight-out Lecompton Democrat, carried the State last year by 14,000 majority; but the Democracy, in attempting to conciliate a mere squad of noisy anti-Lecompton, anti-protection, squatter-sovereignty Douglas followers, have lost to the party five or six thousand votes, and carried the State by only about 8,000. So much for pandering to the good or rather bad will of our Douglas neighbor of the Louisville Democrat, and his Wilmot-Proviso, Missouri-Restriction, Day-Abolition confederate of the Cincinnati Enquirer, who is nothing but a free nigger wolf in Democratic sheep's clothing.

EDITORS ABROAD.—A correspondent of the London *Illustrated News* writes from Paris under date of July 27th:

"The night before last I had the pleasure of presenting Senator Seward to Lamartine. All crowded about the two Republican chiefs to hear them discuss European affairs. An ex-Governor of one of the United States—the ten years' Senator—has his eyes upon the White House, and is visiting Europe after twenty-five years absence; Senator Clingman, of Carolina, was here and Senator Sumner, of Massachusetts, goes home a well man to take his seat in the Senate. Raymond, of the N. Y. *Times*, has just got back from the battle of Solferino, which he saw in company with Forsyth, of the Albany *Journal*—both on their way to England; Bigelow of the *Evening Post*, was here; Brooks, of the New York *Express*, was here; Morris, the editor of the *Pennsylvanian Inquirer*, goes to England to-morrow. Deal, of the Boston *Post*, and several other American writers, have had their Paris holiday. Last evening I presented Senator Seward and Governor Raymond to Ristori in the salon of Dr. Castle.—Sourdan, of the *Siecle*, was there; De la Mare, of the *Patrie*; Crawford, correspondent of the *Daily News*; Villiceau, of the *Nord*; Victor Borre, of the *Presse*, and Alexander Dumas."

BAPTIST STATISTICS OF 1858.—The New York *Examiner* says that there are in the United States 590 Baptist associations, 12,153 churches, 7,500 ordained ministers, 1,035 licentiates, 992,851 communicants, and that the number baptised in 1858 was 98,508—nearly one hundred thousand baptisms, and a little less than a million of members! These are figures for which entire accuracy cannot be claimed, but they may be accepted as the closest practicable approximation to accuracy, and as more likely to be too low than too high. The largest number of Baptists reported from any one State is Virginia—115,146. The largest number baptized in any one State is New York—10,842, and next largest, Georgia—7,944. There are 33 colleges, 14 theological seminaries, 29 weekly newspapers, 16 monthlies, and 2 quarterlies, in the United States, that depend on Baptists for support; 64 new church edifices were erected in 1858; 238 new churhes were constituted, and 304 ministers were ordained.

AN AMERICAN OFFICER ON THE FIELD OF SOLFERINO.—In Dicken's "All the Year Round" is an interesting letter from the Field of Solferino, on the night after that terrible battle. The writer was in company with an American officer, who during the battle wandered about the field indiscriminately, at one time finding himself amongst the Austrians, then with the Piedmontese, and finally took up a position with the French. At night he camped upon the field, but could not sleep for the groans of the wounded in the act of the removal. Hearing a cry of anguish near by, he proceeded to the spot and found an Austrian officer, whose thighs had been dreadfully torn by a cannon ball. He went to a cottage for aid, but the occupant, upon learning that the sufferer was an Austrian, one of the hated Tedescho's, hissed out the words, "Let the brigand die." "A Tedescho, certainly," said the American officer, "but still a man," and finally he induced the Italian to give the sufferer a refuge.

Senator Holley in Reply to Governor Gorman.

The people of Minnesota have been living under a bogus Governor for two years past, of which all have been convinced. A few weeks since Ex-Gov. Gorman stated certain facts in the presence of Mr. Holley, editor of the Chatfield *Republican*, which facts Mr. H. published. Gov. G. denounced him for violating private confidence. This brought the following spicy reply from Mr. Holley:

Now firstly as to this *private* conversation which the Governor intimates we have revealed. We went into Mr. Simeon Smith's law office on the day when the conversation mentioned took place, and found there Mr. Smith, Ex-Gov. Gorman, Harley B. Morse, Esq., James M. Cavanaugh and Eugene Dorival. The first mentioned three were engaged in conversation when we entered, and if it was a private one, we certainly had no intimation to that effect. As it was political, and in reference to Breech Clout Democracy, as a matter of course we gave it our undivided attention. We certainly had no intention to do the Governor a personal wrong, in repeating it, as we certainly did not have the intention of doing the party with which we are connected of concealing it. We set down without malice so far as our article went just exactly the words uttered by the Governor. No more, if anything less, so far as unstinted denunciation of Rice Democracy was concerned in connection with the canvass of 1857.

We did not state in our article that the Governor stated "of his own personal knowledge Rice perpetrated *frauds* in Becker's law office," but stated that the Governor said that he knew of his own personal knowledge that the Rice men, headed by Henry M. Rice himself, did, in Becker's law office, fix up the plan by which the canvass of the election in 1857 was made, and not only ourselves but others present clearly understood the Governor to say this, that by the first arrangement of these tricksters Ramsey was elected; by the second arrangement Sibley was elected by 42 majority, and by the third and last arrangement, this majority was increased to 240. We call this fraud; the Governor, it seems by his letter, calls it something better.

The expression used by the Governor, "we know all this, and yet these same tricky breech-clout moccasinites would set themselves up for honest Democrats to vote for," was in answer to an appeal to the Governor by one of the Democrats present, to "dry up and not play that d—n Lynde down here." So much for the facts. If the Governor is positive he did not state all the substance of our article as we have stated, we are just as positive that he *did* so state, and we find that our statement is confirmed by others who heard the same coversation. But as it is not upon material facts in the case, but upon the question of betrayal of confidence that the Governor has rested his case, we refer to that again.

Whether we are "honorably justified" in publishing the Governor's statement depends somewhat, we imagine, upon the right of one party to make another keeper of secrets without his consent. We believe it takes both sides to make a binding bargain, and because Gov. Gorman indiscreetly talks in our presence, are we to be forever tongue-tied as to his relations? If we should hear a prominent politician blowing away in a stage-coach or bar-room about certain "political knaves," does "social intercourse," require that we keep the conversation private? When in the course of human events, did random listeners to the utterances of great men become "socially obligated" to never speak of or repeat words, they the great men, better not have said?

The idea of making us responsible for revealing a secret which we heard by accident, as it were, and with no understanding that it should be kept secret, is extremely absurd. Like the lover to his bashful mistress, so say we to Governor Gorman, in conclusion for his guidance hereafter: "Sail, if you love me and have secrets to reveal, say so, or if you love me, and are ashamed to say so, squeeze my hand." We will try to be faithful, Governor, to either signal properly made and acknowledged by us hereafter. But, until we become, by our own consent, pledged to the secrets of breech-clout Democracy, we protest against being gagged in advance concerning them.

Presbyterian Statistics.

From the New York Evening Post.

The following statistics of the last ecclesiastical year were presented in the minutes of the New School Presbyterian General Assembly. A comparison with the preceding year shows that there has been a gain of 10 Presbyteries, 41 licentiates, 25 candidates, 109 ministers, 163 churches, 20,295 communicants. The increase in contributions for the Boards is $86,996, whilst the total increase of contributions exceeds those of 1858 by $312,226.

The number of communicants received on examination is greater than any previous year, except 1852, when as the result of extensive revivals, the number was 34,160. In 1853 the accessions reported were 23,546.—The number reported for 1850 is 23,945. For 1858 there were 20,972, the number in that and the present year being largely increased by the revival.

The following will show the comparative statistics of the New and Old School:

	Old Sch'l.	New Sch'l.
Synods	33	23
Presbyteries	168	108
Ministers	2,577	2,546
Churches	3,487	1,542
Licentiates	247	184
Candidates	493	370
Members added on examination	23,945	10,705
Total communicants	270,530	137,090

In the foregoing statistics of the New School are included the Synods of Virginia and Missouri, which, however, do not properly belong to the New School General Assembly. It will be observed that whilst in the Old School body the number of churches exceeds that of the ministers by 910, in the New School the ministers outnumber the churches by three. Their candidates are also proportionally much more numerous than those of the Old School, so that unless they engage more extensively in missionary work, there is a prospect that they will soon have more ministers than they can dispose of.

Adding together the statistics of both New and Old School, the following is the result:

Total communicants	419,620
Synods	56
Presbyteries	276
Ministers	4,122
Churches	5,027
Licentiates	431
Candidates	863

A NEW SPECIMEN OF AN "HONEST MAN."—We published on Saturday morning an advertisement of Mr. Paul Parks, lumber merchant, announcing the theft of his pocket-book, containing a sum of money and notes. Yesterday Mr. Parks received the following letter, in which an "Honest Man" states that he has borrowed the money for a time, but kindly returns the notes:

BUFFALO, Aug. 13, 1859.

Dear Sir:—I went down to your yard yesterday, and passing through your yard I found a pocket-book. Being very much in need of a little money, I did not stop to see what was in it. On examining it afterwards, I found it contained about twelve dollars in money and some notes. I send you the notes enclosed; but the money I will keep for awhile. Don't consider that you have lost it, for I will pay you it when I have means of doing so. I would give it all to you, but no person needs it worse than I do at this present time. Wait patiently until you hear from me again. HONEST MAN.

P. S.—Your money is only lent.—*Buffalo Courier.*

I BELIEVE IT SAVED MY LIFE.—Jacob Wooster, of Bush Creek, New Sewickly township, says:

"For two years I suffered the Vertigo, Nausea and Headache, attending Dyspepsia, sometimes so severely as to incapacitate me for any effort—at others, to confine me to my bed. My bowels were often so constipated as to oblige me to use the most powerful purgatives to relieve myself. Indeed, I at last found it necessary to use something of the kind constantly. Last fall I commenced taking BŒRHAVE'S HOLLAND BITTERS, and found it just what my case required. I cannot recommend it too highly, for *I believe it saved my life.*"

CAUTION!—Beware of imposition. See that the name of Benjamin Page, Jr. & Co., sole proprietors Pittsburgh, Pa., is on the label of every bottle.

STATE OF NEW YORK, } ss.
COUNTY OF NEW YORK. }
Josiah W. Baker, President, and Wm Jaffray, Secretary, of the Park Fire Insurance Company of the city of New York, being severally sworn, depose and say that the foregoing is a true, full, and correct statement of the affairs of said Company; that the said Insurance Company is the bona fide owner of at least one hundred and fifty thousand dollars of actual cash capital; invested in mortgages on real estate, worth double the amount for which the same is mortgaged; that the above described investments, nor any part of them, are made for the benefit of any individual exercising authority in the management of said Company, either as President, Secretary, Treasurer, Director, or otherwise.
That the mortgages above described have not been assigned nor in any manner released or impaired by said Company, and that they are the above described officers of said Company.
J. W. BAKER, President.
W. JAFFRAY, Secretary.
Subscribed and sworn before me this 28th day of July, 1859.
Witness my hand and seal of office.

STATE OF WISCONSIN, }
SECRETARY'S OFFICE, }
Madison, August 1st, 1859. }
Satisfactory evidence having been furnished to me that the Park Fire Insurance Company of the City of New York, being an Insurance Company incorporated in the State of New York, having complied with the requirements of section one of an act entitled "An act to regulate Insurance Companies not incorporated by the State of Wisconsin," approved March 17th, 1859; and having also paid into the State Treasury the sum of five hundred dollars, according to the requirements of Section five of said act:
Now, therefore, in pursuance of the Act aforesaid, the Secretary of State of the State of Wisconsin hereby certifies that Geo. Baker, Agent, Milwaukee, if he be duly authorized by said Company, may take risks, receive premiums, and transact the business of an Insurance Agent for said Company in this State, from this date unto the 31st day of January next.
In witness whereof, I have hereunto set my hand, and affixed the Great Seal of the State, at the Capitol in Madison, the day and year first above written.

TESTIMONIAL.

BOSTON, July 19, 1857.

MESSRS. J. BURNETT & CO.—I cannot refuse to state the salutary effect in my own aggravated case, of your excellent Hair Oil—(Cocoaine.)

For many months my hair has been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair washes, which I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation; in three or four days the redness and tenderness disappeared—the hair ceased to fall, and I have now a thick growth of new hair. I trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,
SUSAN R. POPE.

A CARD TO THE "LADIES."
Dr. Duponco's Golden Periodical Pills
FOR FEMALES.

THE COMBINATION OF INGREDIENTS in Dr. Duponco's Golden Pills are perfectly harmless. They have been used in the private practice of old Dr. Duponco for over thirty years, and thousands of ladies can testify to their great and never failing success in almost every case, in correcting irregularities, relieving painful and distressing menstruation, particularly at the change of life. From five to ten pills will cure that common yet dreadful complaint, the Whites. Nearly every lady in the land suffers from that complaint. The above pill has permanently cured thousands, and will cure you if you use them. They cannot harm you, on the contrary, they remove all obstructions, restore nature to its proper channel, and invigorate the whole system. Ladies whose health will not permit an increase of family, will find these pills a successful preventative. Pregnant Females, or those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition although their mildness would prevent any mischief to the health—otherwise these pills are recommended. Full and explicit directions accompany each box. Price $1,00 per box. H. BOSWORTH & SONS, Wholesale Agents for Milwaukee.

They will supply the trade at Proprietor's prices, and furnish circulars, and show cards. Sold also by H. Fess, jr., 195 East Water St., J. M. Alcott 208, J. H. Tesch, 9 Spring St., and C. H. Gardiner & Co., 19 Spring St. "Ladies" by enclosing $1,00 to H. Bosworth & Sons, or either of the above Agents, can have the above Golden Pills sent to any part of the country (confidentially) by mail.

N. B.—Be particular in asking for Dr. Duponco's Golden Pills, and remember, they are not a secret nostrum, every agent is given the receipt composing the Pills, and they will tell you they are the best and safest Pill for Females, ever introduced since the Science of Medicine dawned upon the world.

BAD COUGH, RAISING BLOOD, NIGHT SWEATS CURED.—Mr. Artemus Rudder, of Niles, writes.

For four months I have been troubled with a very bad cough. I got so bad lately that I have at times raised large quantities of blood and some pus. This frightened me, for I thought I had the Consumption. Night after night I was bathed in sweat; so that I was, when I came under your treatment, little better than a "withered bud." I commenced the use of the Ready Relief, Renovating Resolvent, and Regulators, which I got from Dr. J. Lorimore, of this place. I bathed my chest and throat with Ready Relief, took the Resolvent three times per day, internally, and from one to three Regulators every night. The first night I took the Relief and Resolvent, I slept in peace. I have had no distress from my cough since that night. In two weeks I was completely restored. Have now a good appetite, and am growing quite fat.

Very truly,
Niles, Mich., Sept. 10, '52. ARTEMUS RUDDER.

"MAIST ONIE DAY."

BY TIMOTHY SWAN.

Ye ken, dear bairn, that we maun part,
When death, cauld death, shall bid us start;
But when he'll send his dreadfu' dart
We can na say,
So we'll be ready for his cart
Maist onie day.

We'll keep a' right an' gude wi'in,
Our wark will then be free fra' sin,
Upright we'll step thro' thick and thin,
Straight on our way,
Deal just wi' a', the prize we'll win,
Maist onie day.

Ye ken there's Ane what's just and wise,
Has said that a' his bairns should rise
An' soar aboon the lofty skies,
And there shall stay;
Being well prepared, we'll gain the prize
Maist onie day.

When He wha made a' things just right,
Shall call us hence to realms of light,
Be it morn, or noon, e'en or night,
We will obey,
We'll be prepared to ta' our flight
Maist onie day.

Our lamps we'll fill brimfu' o' oil,
That's gude and pure—that will na spoil;
We'll keep them burnin' a' the while,
To light our way,
Our wark bein' done, we'll quit the soil
Maist onie day.

JUST MARRIED.

From Blackwood.

The top of a stage coach—going over a rough rode, with hills on every side, and heavy, watery clouds rolling on their tops, a cold piercing wind blowing right in your teeth, driving a drenching rain through you—is not an agreeable sort of thing, or one calculated to render a naturally reserved and not over amiable individual talkative, or to be talked to pleasantly. In such circumstances I once travelled a rather long journey, morose and silent, inwardly confounding things in a general way, and my barometer especially, for failing to foretell a storm. So at least I sat for the first ten miles, while the rain, pouring off my ruined hat, trickled in dark streams down my unfortunate face, making map-like figures on my erst spotless linen; when I was forced to speak to a fellow traveller who sat next to me, and who insisted on honoring me with the title of "Captain," inquired if I couldn't "throw him some sort of a line to moore his hat with?" I looked at the individual, and saw he was a sea-faring man, with a face like an old oak carving, brown and solid like, fringed with a bristling, scorched beard of a ginger color. He was evidently in "holiday rig"—black satin vest, black kid gloves, gradually washing to a purple in the rain, and hat, as usual, too small, and set far back on his head. I said I was "sorry I had not a line." "Never mind, never mind," he replied, squeezing his hat furiously on, and added, "Tell you what, captain, I'd a sight rather be in a gale off Cape Horn, on the deck of the *Mermaid*, than on this old tea-caddy on wheels—I would." No doubt," I replied—not that I was in a position to express a preference from experience, merely for shortness.

But he was at me again—in what was meant for a confidential, and what would have been a subdued tone, but for the noise of the fierce wind, which necessitated something of a howl—he said, "But it's all right below!" followed by a series of winks and a small laugh. "What's all right?" I inquired, rather puzzled. "It's all right in the cabin—she's there! as dry as a bread barge, and as beautiful as an angel, she is!" "Who is?" said I, as we swept round a turn in the road, and got the wind "on our starboard quarter," as Jack had it, (his name was Jack of course.) We were now under the lee of Mr. Coachman, with his huge body in six or eight great coats, and so we escaped some of the wind and rain, and could speak with more comfort. "Who is?" said I getting interested. "Oh!" replied Jack, "you don't know. I'm down here on a spree—getting married—come down on Sunday night—was cried in church on Sunday; and (this very confidentially) a confounded lubber of a fellow—old sweetheart—tried to stop the thing, you see, but 'twas no use—cut her out under his bow—got married this morning, and here I am, and she's below in the cabin! I'm going to stick to shore now, and lead a private life with her—she's a tidy girl—she is!" By this time we were at the first stage—horses had been changed. So we all got down—the inside all got out, and we soon filled the snug parlor of the hotel, every one taking something more or less hot and strong.

I kept by Jack and his bride, wishing to see a little more of them. She was very gaudily dressed in a shawl like a stained-glass window, or a condensed rainbow, and a bonnet all white and cloudy like, with a whole cottage garden outside, and some few flowers inside, visible through a thick white veil like those said cottage windows; and then the light gloves, already soiled, made her hands look like a pair of large-sized canaries rather ill of moult, as they fluttered here and there, with affectionate solicitude, over Jack's person—now arranging his tie, now settling down his wet hair, or propping up his drenched and limp shirt collar; he meanwhile looking foolishly delighted and blushing a good deal *inside*—a blush couldn't get through that tanned skin of his—but he looked as though there was one trying it.—The bride still kept her veil down; and I felt curious and a little impatient to see what kind of a face came up to Jack's notions of an angel. I didn't wish to come to a rash conclusion on the subject of her looks, as I knew veils to be deceptive, especially white ones, so I waited until she was induced to "take something."

When she set about the operation of raising the curtain, I inwardly challenging her to do so, and show a face half as beautiful as ——. Stop! Where was I? Well, she showed her face, and I was disappointed; I'm compelled to say she was, to use a mild phrase, rather ugly upon the whole; and as to age, oh!—never mind; she had glossy stiff black ringlets, as black and stiff as so many ebony rulers, and absurdly developed ear drops, like brass candlesticks, swinging about as she moved. What is beauty? To him she was as beautiful as all the Venuses, and it suits his purpose to believe so quite as well as though it were the case. Long may he think so and may they be happy, I reflected. Jack was happy then, if ever. He shook hands with every one he could lay hold on, treated everybody to everything, affording opportunities too eagerly clutched at by some, of getting gratuitously glorious; and while he thought of his vanquished rival, and his beauteous bride, (we'd better say,) the wind might be exultingly performing the chorus, accompanying itself with the rain on the windows:

"Happy, happy, happy pair;
None but the brave,
None but the brave,
None but the brave deserve the fair."

I saw no more of the happy pair at that time. One of the "insiders" stopped at the hotel; a seat was vacant, and I, with a self-sacrificing generosity, which none but myself can duly appreciate, and which I shall ever remember with pride, waived my prior claim, and let Jack get into the "cabin" beside his dry angel for the rest of the journey.

TWO MONTHS AFTER MARRIAGE.

"Good lack!—oh! what a change."

The streets are interesting on a Saturday night, a dark night, say about ten o'clock: lights streaming from grocers, butchers, bakers, cook shops, and public house doors and windows; the crowd pouring on incessantly, every individual working his or her thread in the tangled web of city life; ladened housewives laboring along with big baskets, with wondering weans in tow, taking home their marketing, and minding the goodman's newspaper and tobacco in passing. Sad, worn like wives, walking anxiously, looking for their husbands, their market baskets still empty, and nothing to fill them with till they hunt them up, and too often nothing then. Thousands tiding on thinking not of these things. Men, women and children bawling wonderful pennyworths, "stay laces and boot laces," a fabulous number for a "ha'penny." "Day and Martin's best paste blacking," "lucifer matches," "best Seville oranges," "latest edeeshin of North Breetin Express, Scotsman or Fusees," with now and then the stentorian voice of all but the last "speech-crier," rising above every other noise, as he roars to the citizens, ☞ just newlie published, containing a full and particular account," it may be of a "ter-r-rocious murder," or "a cur-rool and barbarous shipwreck and loss of life," but it fails to excite us more than the stay lace and boot lace announcement.

So, hearing all these things, seeing all these things, one night two months after the stage coach journey, I passed on through or with the crowd; I was keeping my eye on a couple just a little before me; there was no doubt as to their relationship; the man walked in advance of his better half, smoking, with his hands buried, *pro tempore*, in his coat pockets; the woman followed her imperfect half in a trailing ship-shod fashion; she was decidedly draggle-tailed, and not in the least "purpose like;" she carried a basket which I'm sure contained a sheep's head and "greens." The husband passed a cook-shop, a fragrant gale came out at the door, took him tenderly by the nose and turned him back to look in at the window, where his wife presently joined him, and there they stood in the glaze of light from the cook shop window, the bride and bride-groom of the stage coach! I was amazed and horrified to see the change, especially on the bride. Dear me! was the romance rubbed off so soon, like the polish off cheap furniture, or the gilding off base jewelry. There she was in the scarcely recognizable rainbow shawl—the bonnet was only to be guessed at. I think it was the marriage one. I don't know where the ringlets were, they were twisted into an abominable knot at the back of her head, keeping the bonnet resting on her ruined shawl; the horrid pendulous ear-drops were there, more brassy-like now; the gloves were not; she had the door-key in her hand. (I hope she meant to wash those hands when she got home,) and there they stood in the light of a cook-shop window, two months after marriage.

They were debating rather warmly what they would have for supper. "Pigs' feet" (oh, horror!) and "sausages" were the only words I could catch—these were the rival candidates for the meal. Jack, I could gather, was using his influence in favor of the former—Mrs. Jack was strongly bent on the latter; the debate grew warmer, and ended in Jack stalking sulkily off, followed by his wife in a pet, without supper at all—and this only eight weeks after marriage! Nervous and uxoriously-inclined individuals think of that! Promising and engaging girls, look at the picture! Ladies and gentlemen, do not be offended; I don't mean that either of you, respectively, would marry taken-faced sailors or ebony-ringleted ear-drops; or that, if you did, you would go a marketing on Saturday night; or, supposing you might do so, that you would quarrel on the relative merits of pigs' feet and sausages. By no means. But you may get married, and you may find that the honeymoon is succeeded, as somebody says, by a "bees-wax moon!" if you don't take care to discover what cupid likes to live on best, what sort of a house suits him, and, generally, how to secure his countenance, so that the fastidious boy mayn't fly away as soon as the newness leaves your dresses and furniture, and leave you to quarrel on things of as vital consequence as the supper of Jack and his bride.

Milwaukee, June 15th, 1859.

THE PURE WINES OF HUNGARY.

STATE ASSAYER'S OFFICE, 32 Somerset St., Boston, July 1st, 1858.

Messrs. FREUND & GROSSINGER.—

Gentlemen:—I received from you eight samples of Red and White Hungarian Wines, which, at your request, I have submitted to chemical analysis. I send you the details with this letter.

From my researches it appears that these Wines are pure, and they contain nothing but the products of the grape. I can confidently recommend them to the public as good and pure wines, and as not so likely to become sour as the light wines of France.

I exposed my samples forty-eight hours to the air, in a warm room, without any souring having taken place.

The general character of the red Hungarian Wines is that of the Red Burgundy of France, and the White Wines (with the exception of the sweet or dessert wine) are between Hock and Sauterne, but somewhat stronger than either of these.

I am satisfied that, when known to the public, the Hungarian Wines will be greatly in favor, and that they will be much sought for.

Respectfully, your obedient servant,

At No. 93 Randolph street, Chicago, is now working miracles in the way of restoring

LOST SIGHT AND HEARING.

Upwards of TWO HUNDRED have been received by Dr. C. within the last four weeks, many of whom have been blind for months and years, have had their sight restored instantly by DELICATE AND DIFFICULT OPERATIONS, while others, who have been sufferers from deafness, have been miraculously cured by mild and gentle treatment.

The best proof as to how Dr. C.'s services are appreciated is, that he is daily receiving new patients from all parts of the country, and dismissing, as cured, his early received cases.

No FEE is required for an examination or opinion. No CHARGE for services that are NOT SUCCESSFUL, as will be stated when the patient is received. Dr. Caldwell's TREATISE ON THE EYE AND EAR to be had GRATIS on application as above.

A BLOODLESS VICTORY!!!
1,000,000 BOXES SOLD OF
MOREHEAD'S
MAGNETIC PLASTER

THIS ENORMOUS QUANTITY OF this Invaluable Remedy has been purchased by citizens of the United States during the short time it has been before the public. The reason for this extraordinary success is simply in the actual truth and value of the article. No one buys the MAGNETIC PLASTER without becoming its friend. It performs all that is promised, and carries with it its own recommendation. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its train of carnage and desolation.

The MAGNETIC PLASTER is undoubtedly the Greatest Strengthener and Pain Destroyer that Science has yet discovered. **If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the Pain has vanished. The Plaster magnetises the Pain away, and**

PAIN CANNOT EXIST WHERE THIS PLASTER IS APPLIED.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness; Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, are IMMEDIATELY RELIEVED, and, with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate women, and the feeble infant. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick, and suffering in any way.

FARMERS and PLANTERS should always be supplied with the MAGNETIC PLASTER. It will be the Good Physician in any household, ready at all times and at instant notice.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price, twenty-five cents per box, with full and plain directions. D. C. MOREHEAD, M. D.,
Inventor and Proprietor, 19 Walker St., N. Y.

MOREHEAD'S MAGNETIC PLASTER IS SOLD BY ALL DRUGGISTS AND DEALERS IN GENUINE MEDICINES EVERYWHERE. dec15h52d3tawawly

SOYER'S SULTANA SAUCE.
For Hot or Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetizing Sauce was invented by the renowned "SOYER," on his return from the Crimea, and since his decease is manufactured by CROSSE & BLACKWELL, London, from the original recipe. The manufacturers simply ask for it a trial, convinced that it must add to the already large consumption, and that it will prove itself unequaled, either as a stimulant to the appetite or an aid to digestion.

Opinions of the London Press

"We recommend our correspondent to try Monsieur Soyer's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION.—*The Lancet.*

"The Sultana's Sauce is savory, piquant, and spicy; a happy combination of flavors and essences worthy of the delicate taste of a Sultana, the genius of a Soyer, and the universal patronage of a discriminating Public."—*Observer.*

"A concentration of all the piquant resources of Turkey and Russia."—*United Service Gazette.*

"As a titillater of the appetite this Sauce stands alone. It is a most valuable adjunct to Fish, Flesh, or Fowl, and should be placed on every dinner table."—*Atlas.*

"The Sultana sauce is a most delicious zest."—*Morn Chronicle.*

RICHARDSON'S
IRISH LINENS, DAMASKS
DIAPERS, &c.

CONSUMERS OF RICHARDSON'S Linens, and those desirous of obtaining the Genuine Goods, should see that the goods they purchase are sealed with the full name of the firm, RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine goods, will not readily abandon a business so profitable, while purchasers can be imposed upon with goods of a worthless character.

OLD LONDON DOCK
GIN,
A. M. BININGER & CO.,
(ESTABLISHED 1778,)
IMPORTERS,
No. 17 Broad Street, New York.

THIS AGREEABLE TONIC IS DESIGNED especially as a

Safe and Reliable Medicine for Family Use.

The public are assured that our LONDON DOCK GIN is a superior article, possessing all the virtues ascribed to it as a *Medicinal Beverage*, and deserving of their patronage, in preference to the suspicious decoctions emanating from irresponsible sources, and sold under various pretentious names.

The fact that our house (established in 1778,) has attained a favorable reputation for the genuine character and purity of its Liquors, will, we trust, be a sufficient guarantee of the excellence of this article.

Put up in quart and pint bottles, in cases of one and two dozen each, with our name on the bottles, and a facsimile of our Signature on the wrappers.

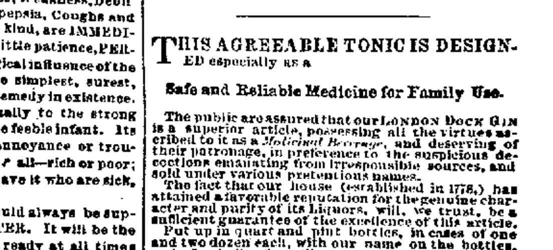
BOERHAVE'S
HOLLAND BITTERS.



THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND,
FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Apetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in affect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit and infusing new health and vigor in the system.

READ CAREFULLY! The genuine highly concentrated Boerhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of imposition! See that our name is on the label of every bottle before you buy.

MORE TO BE ADMIRED THAN THE
RICHEST DIADEM
EVER
Worn by Kings or Emperors.

What? Why a Beautiful Head of Hair.

BECAUSE IT IS THE ORNAMENT GOD *Himself provided* for our race. Readers, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled or shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than one half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first *is the celebrated Pianist, Thalberg:*

DR. WOOD:— New York, April 19, 1858.

Dear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly,
S. THALBERG.

"Drych a'r Gwyliedydd."
Welsh Newspaper office, 13 Nassau st.,
April 12, 1859.

PROF. O. J. WOOD:—*Dear Sir*,—Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change of their hair. CHARLES CARDEW.

New York, July 25, 1857.

PROF. O. J. WOOD: With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers which were almost white have gradually grown dark: and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who prespire freely.

J. G. KILBY.

PROF. WOOD—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turn back to its former color, (black.) At this time it is fully restored to its original color, health, and appearance, and I cheerfully recommend its use to all.

Chicago, Ill., May 1, 1857. J. D. HOES.

The Restorative is put up in bottles of three sizes, viz: large, medium and small, the small holds half a pint, and retails for one dollar per bottle; the medium holds twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, forty per cent more in proportion and retails for $3,00 a bottle.

O. J. WOOD & CO., Proprietors, 312 Broadway, N. Y. (in the great N. Y. Wire Railing Establishment,) and 114 Market St., St. Louis Mo.

And sold here by all druggists and fancy dealers.

For sale by C. Harrington & Co., H. Fess, Jr., Bosworth & Sons, Green & Button, and all druggists in Milwaukee, and Wisconsin. jy29d&w3meod

To Muskegon..	20	....	....	....	....	....
Total.... ...	673	10,736	....	....	....	....

The lightness of receipts was the only hindrance to an active market to-day. Buyers were ready to purchase all they could get at yesterday's prices. Old No. 1 and old extra No. 1 were taken at 58 and 60c, and new extra No. 1 at 65@70c, and new milling club at 72 to 75c. The latter prices were obtained only for very choice samples. Oats still sold at 28 to 30c, but the market was weak, the demand at present being only for local business. A couple of small lots of shelled corn sold at 61c. No change in other articles.

CHICAGO, AUGUST 17.—Receipts: 1,126 bbls flour, 30,768 bus wheat, 22,702 bus corn, 5,659 bus oats.—Shipments: 2,160 bbls flour, 26,919 bus wheat, 54,566 bus corn, 10,600 bus oats.

The wheat market to-day was active and firm at yesterday's quotations, with a closer range of figures. The principal transactions were in spring wheat, for which there was a good shipping demand. Winter wheat was quiet, with no change in quotations. No. 1 is scarce and in demand, at $1,03@1,04 in store. A lot of 1,800 bushels was sold this morning on private terms; and there is very little now left in store. The transactions amount in all to about 25,000 bushels, at $1,00 for fair white delivered; 85c for No. 1 red in store; 72@73c for No. 2 red in store; 75@76c for No. 1 spring in store; and 67@69c for No. 2 spring in store—the market closing firm. Flour remains dull and nominal. Corn advanced ½@1c, with a good inquiry. About 84,000 bus were sold at 65c for a cargo of No. 1 f. o. b.; 61@62c for No. 1 in store; and 58@59c for No. 2 in store. There is a fair shipping inquiry for oats and the market is unchanged, though a shade firmer. About 7,000 bushels were sold at 27c for canal afloat, and 25c in store. Rye firmer. Highwines ½c lower—sales at 23c. Alcohol, 52c. Nothing doing in provisions. Hides unchanged. Potatoes firm, at 60 for choice neshannocks.

MILWAUKEE DAILY MARKET.

FOREIGN MARKETS.

[*Per Asia.*]

LIVERPOOL, August 5. Breadstuffs—Richardson & Spence report weather favorable for the crops. Market closes with a declining tendency. Flour dull but steady. Wheat declined 2@3d. Corn easier but unchanged for European; mixed yellow quoted at 34s6d@6s1d. On the 6th, at noon, Breadstuffs closed very dull.

Provisions—Dull. Beef heavy, but there is an improved request, and holders are pressing on market; quotations are 2s6d lower. Pork dull, and quotations nominal. Bacon dull, but steady. Lard steady and in more demand; sales 54s@56s.

Produce—Potashes steady at 27s@27s6d. Pearls steady at 29s6d. Sugar dull. Coffee quiet. Rosin steady. Spirits Turpentine heavy, but closed active at 32s@33s.

LONDON, Aug. 5.—Breadstuffs—Barings quoted Breadstuffs very dull, and quotations barely maintained. Welsh Iron rails steady at £6 5s.

LONDON MONEY MARKET, 5th.—The market is decidedly more stringent; but closes active. Consols closed at 95¼. The bullion in the Bank of England has decreased £152,000.

The British Corn Trade.

[*From the Mark Lane Express, Aug. 1.*]

The weather of the past week up to Friday night was very favorable for harvest operations, which have become general in the southern part of the country. We, however, are sorry to find that a great deal of the wheat laid, has suffered much in its growth, some crops have been offered us they stand at £8 per acre; while many cases of equal depreciation are quite apparent. The disease among the potatoes too has very decidedly increased since the heavy rains of last week, many pieces being so bad they have been ploughed up. Several of those which were sound being checked in their growth by the excessive heat, have since been forming new tubes instead of completing their size. Barley is more favorably spoken of; and oats almost everywhere promise abundance, with a quality beyond the average. On the Continent the yield of wheat is more doubtful. In France it has suffered from the heat, heavy rains, and hail; and rye is estimated to be one-third short of an average. In taking a broad view of the present promise of the Continental crops we may note that the whole cereal produce of Europe, so far as ascertained this season, appears less than in past years; and potatoes (partially blighted) seem very uncertain in their yield. Prices, therefore, have rather advanced.

At Marseilles, on a stock of 50,000 qrs., wheat was dearer, and our own supplies being but moderate, there has been a rise of fully 1s per qr., notwithstanding the more pacific aspect of politics. Indeed, with the scarcity of labor, there is some danger of a protracted gathering, and a proportionate risk as regards the weather. There is doubtless a fair stock of old wheat in the country; but it will all be wanted for mixing, and no foreign supplies would make up for its absence on our markets. At Odessa, and in America, prices have rather receded, the new harvest producing some desire to quit old stocks.

The arrivals of the coast since 20th inst., have been 49, of which 18 were wheat and 15 maize. The business transacted was as follows: One cargo of Sandomicka wheat at 42s6d, one of Odessa Ghirka at 41s6d, and two of Saldi at 20s@21s ℔ qr.; seven cargoes of maize at from 27s7½d@28s, and one damaged at 26s ℔ qr., and one of Odessa barley at 22s, and one of Mazagan beans at 35s6d ℔ qr.

The sales noted last week were 62,472 qrs wheat at 44s11d, against 91,917 qrs in 1858. The London averages were 45s4d on 2,885 qrs. The imports into the principal ports of Great Britain in wheat and flour, for the week ending July 20, were 51,154 qrs. wheat.

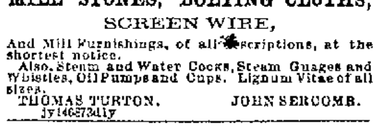
IMPORTANT NOTICE
—TO—
MILLWRIGHTS AND OWNERS.



The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 14th December, 1853, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and of controlling the water, by which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are:—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from water to water.

2d. It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large or small amount of machinery, as the strength of the wheel is not diminished by reducing its motion, since it depends upon the WEIGHT of the column of water BELOW the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with LESS expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant the Wheel to possess a power equal to the following figures, for each foot fall of water

6 inch	wheel	52.100	horse-power
10½	"	75.100	"
12	"	99.100	"
13½	"	1.31.100	"
15	"	1 55.	"
16½	"	1 37.100	"
18	"	2.35.100	"
19	"	2.65.100	"
20	"	2.96.100	"
22	"	3.53 100	"
24	"	4.29.100	"
26	"	5.25.100	"
28	"	5.95.100	"
30	"	6.81.100	"

Wheels of the above sizes make from 400 to 1000 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with less expense than any other wheel.

The Company have competent workmen, who will put them in any place in workmanlike manner, at reasonable rates. The Wheels can be afforded at a less price than any other wheels now in use.

W. B. STURGESS, Sec'y, Troy, N. Y.

CERTIFICATES.

MIDDLETOWN, Ct., Dec. 1, 1858.

Dear Sir—In answer to your favor asking my opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that it has exceeded my expectation. I took out a Breast Wheel 10 feet in diameter, by 9 feet Buckets, and replaced it with one of "Fairchild's Patent" 15 inch Wheels, and it gives more power, with no greater amount of water, and the motion is as steady as that of a steam engine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater or less amount of machinery, "such as is necessary for the manufacturing of fire arms," whereas an increase of machinery upon my old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority (however skeptical) if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully,
EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 8th 1859. "The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused us a moment's delay since you were here."

SHELDON, Franklin Co., Vt., June 20, 1858.

Dear Sir—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for it. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the twelve feet Breast Wheel, which I have heretofore used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufactories may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be kept on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sash, Doors and Blinds at the manufactory of M. Y. King, Esq., (State Dam) Joliet, Ill., where any and all are invited to call and examine it under practical test, and a motion of 700 revolutions per minute. For further particulars please address

GRAND CHANCE TO EXCHANGE Farm Mortgage Bonds.—I have left with me a large quantity of Lands in Texas, to exchange for Farm Mortgage Bonds in Wisconsin. The property in Texas is very valuable, and I presume it is well known that there is no State in the Union, where the property is so desirable and on the increase as it is now in Texas. Any one who has any Bonds as above mentioned, if they will call at the City Land Office of Ogden & Wall, they can ascertain all information they want.

jy26 CALEB WALL, City Auctioneer.

CITY LAND OFFICE

WE HAVE THE FOLLOWING VALUABLE Property, which we are authorized to exchange for City Property improved—for Dwelling Houses and Lot in Seventh, First or Fourth Wards:

The undivided sixteenth interest of fourteen thousand and sixty-six acres of valuable Pine Lands, in Marquette county, Michigan. The Lands are surrounded by Mills, and are in the neighborhood of valuable Mines. Prefer having unencumbered property, but would exchange for property that is encumbered, provided the encumbrances are not too large.

Also five hundred and sixty acres of Heavy Timbered Land, in the State of Illinois in a large settlement two and a half miles from the Mississippi river, and within one hundred miles of the city of St. Louis.—Will also exchange this property for house and lots in the seventh, Fourth or First Wards. The Lands are all free from any encumbrances. Title is perfect.

Also, we will sell that well-known Hotel and two lots, known as the Atlantic House, formerly the Hawkins House, Fifth Ward. Its situation for business is good, being very near the depot of the Milwaukee & Chicago R. R., and immediately opposite the said Hotel six new brick stores are going up. The said Hotel and lots will be sold on ten years credit, without any money being paid down, with seven per cent. interest.

Also a farm of 40 acres 2½ miles from city limits, which we will sell for $2,200, cash.

We have continued applications to exchange city property for farms, and there is also an increased demand for farms from the large emigration which is now coming to our state. Any one who has farms along the La Crosse Railroad it would be well for them to leave a list of same with us.

THE GREATEST
MEDICAL DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds, a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing mouth.

One to three bottles will cure the worst kind pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

Radway's Regulating Pills.

DR. RADWAY & CO., have recently discovered a method for extracting from roots, herbs, plants and gums, a nutritious extract of such wonderful nourishing power—which they have combined with Radway's Regulating Pills—that six of these pills will supply the blood with the same amount of nutrition as one ounce of ordinary bread; so that while the system is undergoing a thorough physicing, and regulating process, it daily becomes strengthened.

Persons afflicted with Liver Complaint, Dyspepsia, Heart Diseases, Fullness of Blood, and all Females who are subject to Irregularities, Hysteria, &c., are particularly recommended to use these Pills. They are pleasant to take—elegantly coated with gum—free from taste and will not gripe, sicken or weaken the system, or leave the bowels costive. Mothers nursing should likewise take one or two of these Pills once or twice per week. They will not only keep your system healthy and regular, but will protect your infant against Cramps and Pains in the stomach, and insure not only a healthy child, but will invest every child thus suckled, with a sweet disposition.

RADWAY'S REGULATING PILLS

Regulate each and every organ of the system, and correct all derangements of the Liver, Bowels, Stomach, Heart and Kidneys.

THEY CURE

COSTIVENESS,	INDIGESTION,
HEART-BURN,	DYSPEPSIA,
BILLIOUSNESS,	CONSTIPATION,
DROPSY,	HEADACHE,
PALPITATION of the HEART,	CONGESTION, &c., &c.

They are entirely vegetable and harmless; an infant at the breast can take them with safety, and persons who are subjects of Fits of Apoplexy, Epileptic, Heart Diseases, &c., should always keep a box on hand.
